## Notice

**SPECIAL SALE OF WORK  
IN AID OF**

The Orphans and the Home  
for the Destitute.

The Superiores and Sisters of the  
Italian Convent have the honour to  
announce that their

Annual Sale of Needlework,

comprising Ladies' and Children's  
dresses, embroideries, table covers,  
handkerchiefs and a variety of articles  
suitable for presents, will be held at the  
Convent on the

1st, 2nd, 3rd, 4th and 5th  
October, commencing each day at  
10 a.m.

A Special Feature of this year's Sale  
will be a Children's Stall on which will  
be displayed a fine assortment of Sweets  
and Chocolates specially selected from  
the Manufacturers in Switzerland. This  
Stall is certain to delight the little ones.  
Charming little packets of confectionery  
can be had for five cents each. Besides  
these, there will also be a large range of  
bonbons all done up in fancy and dainty  
boxes of attractive design. Every one  
of these boxes is moderately priced.  
The Superiores and Sisters beg to  
solicit the patronage of a generous  
community to aid the work of providing  
for the maintenance of the large number  
of Orphans at the Convent and its out-  
lying branches.

## OUR CONTEMPORARIES

South China Morning Post.

## The High Dollar.

At the present time there is a  
good deal of anxiety felt by ex-  
port merchants as to the future  
of silver. A few remarks there-  
fore may therefore not be out  
of place. The high rate of ex-  
change at present ruling in China  
tends directly against the export-  
er, while distinctly favouring the  
importer, but unfortunately for  
the latter China is now very much  
overloaded with imports. The  
question asked at the moment is  
therefore "What is to be the  
future of silver?" The answer is,  
of course, "Nobody can tell with  
certainty." But those who have  
the ordinary amount of perception,  
coupled with years of experience,  
think that a fall in the price  
of silver is inevitable. No  
doubt the Indian Government has  
had to come into the market for  
the purchase of silver in London  
at enhanced prices for the pur-  
pose of mining rupees to keep up  
the current reserves in Bombay  
and Calcutta, which reserves are  
subject to the trade requirements  
of the country. The crops in  
India are reported to be even  
above the abnormal product of  
last year, and this prosperous  
condition of the country's har-  
vests cannot but cause a greater  
circulation of rupees. The time  
must however inevitably arrive  
when India will become a seller  
of silver instead of a buyer, and  
when that time arrives, unless  
China, the only silver standard  
country now existing, comes into  
the market for the purchase of  
silver, a heavy fall in the gold  
price of silver will probably  
follow.

Daily Press.

## Hongkong's Budget.

The Budget Speech delivered  
by H.E. the Governor at Thurs-  
day's meeting of the Legislative  
Council, while it contained no sen-  
sational announcements, touched  
upon many projects of wide public  
interest. The most noteworthy  
feature of the Colonial Budgets of  
late years has been the steady  
growth in expenditure. In the  
coming year the expenditure goes  
up nearly a million and a quarter  
dollars at a bound. In order that  
this may be the more clearly  
realised, we give the appropri-  
ations for the past seven years,  
viz. —

1907	.....\$5,202,135
1908	.....\$4,992,953
1909	.....\$5,570,427
1910	.....\$5,625,033
1911	.....\$6,042,543
1912	.....\$5,800,771
1913	.....\$7,116,454

The explanation of this alarming  
increase appears to be, firstly,  
to the fact that the Colony is now  
shouldering the full responsibility  
—to date—of the Kowloon Rail-  
way. This means that a net de-  
ficit estimated at \$551,199 has  
been met out of the revenue for  
1913. The building of the ter-  
minal station will probably add  
another million to the Colony's  
indebtedness on Railway account.  
—If the cost of the Post Office  
Building and the Law Courts  
may be accepted as a guide in  
this matter—so that there is very  
small prospect, we fear, of seeing  
the vote on railway account  
reduced in the immediate future.  
Another project which helps to  
swell the expenditure list is the  
Tyam Tuk waterworks scheme,  
for which a quarter of a million  
dollars is asked for next year.

China Mail.

## Krupp's Famous Works.

Even a century ago numbered  
hardly 4000 inhabitants. It was  
a small country town, having a  
long-established but not flourish-  
ing small-arms industry. At the  
present time, owing to the genius  
of the man, Alfred Krupp, and  
his untiring hard work, aided  
by the foresight of his  
father and the moral support he  
received from a heavy burden  
and a self-sacrificing brother, the  
small town of Essen has become  
one of the great industrial centres  
of the world.

## GENERAL NEWS.

40,000th issue of the "Times."

On September 1. The "Times" published its 40,000th number, and to mark the occasion the issue of that day contained 44 extra pages, chiefly devoted to three subjects—the history of printing, the history of newspapers, and the history of The "Times."

**Bdr. Wells as a Runner.**  
The Cardiff £200 sprint handicap last month, according to the "N. China Daily News," gave Bdr. Wells a chance to show that boxing is not his only strong point. He was allowed 10½ yds. start from R. E. Walker of South Africa and J. Donaldson of Australia. Neither of the scratch men survived the opening round, but Wells won his heat in 9.4/5 sec. and the final in 9.3/5 sec. His victory was easily gained and it looks as though he is quite equal to 10.3/5 sec. for 100 yards, which is a really good performance for a heavyweight boxer.

**Siberia's Record Trapping Season.**

No one need be cold next winter, for, according to figures just published the trapping season has been so successful that the number of fur-bearing animals caught passes all records. Reports from Siberia announce that about 4,500,000 squirrels and 1,500,000 white hares have been bagged, as well as 12,250 sables, 200,000 ermines, 100,000 blue foxes, 15,000 brown bears, 180,000 storks, and 18,500 gray wolves. Following this report it is stated that furs will be extraordinarily cheap next season.

**Discovery of a Comet.**  
The first cometary discovery of the present year has been made by Mr. Walter F. Gale, F.R.S., an amateur astronomer of New South Wales. This is his second cometary discovery, as he found the comet 1894 II. with a 3in. telescope; it became a conspicuous object with a tail 4deg. long, and was visible for five months. The new comet was found on September 9 at 9h. 20m. a.m. (Greenwich time), in Right Ascension 13h. 37min. 1sec., south declination 30deg. 31min. It is, therefore, an evening star, 37deg. east of the sun, and 24deg. south of it.

**Americans and the British Motor Market.**

The "Daily Express" publishes facts and figures with regard to the invasion of Great Britain by the cheap American motorcar, and urges that some concerted action be taken, at once, by British manufacturers to stem this invasion and save a great and profitable industry, which offers a wealth of wages to the British working man. It says that the only way to recapture the huge trade in this class of car is for a firm of manufacturers or a number of firms to concentrate on the cheap car and turn it out in such quantities that it will pay.

**The Burden of the Death Duties.**

The Hon. Irene Lawley, who inherited the Eserick Park Estate, near York, from her father, the late Lord Wenlock, and who has been obliged—as she stated in a letter to abandon her intention of living on it owing to the heavy death duties, has made a statement of her case. She says:—When all that it is possible immediately to realize from sale of property (a sum of £20,000) has been paid, the death duty claims £5,000 a year for eight years—the period permitted for payment by instalments. This takes the whole of my personal income (which might have been £4,000 a year), and also necessitates the reduction of estate expenses. ....It seems to me that a tax which takes all of my income and turns me out of my home is confiscation rather than taxation.

**Lieutenant-General MacArthur.**  
Lieutenant-General Arthur MacArthur, the United States Army veteran of the Civil, Indian, and Spanish-American Wars and the Philippine insurrection, died suddenly at Milwaukee on Sept. 5 while addressing the reunion banquet of the 24th Wisconsin Regiment. In 1898 he went to the Philippines as a brigadier-general of volunteers, and took part in the capture of Manila. In February, 1899, he repulsed an insurgent attack upon Manila and fought the Battle of Oculocan. A month later he succeeded General Otis in general command of the division of the Philippines and at the same time became Military Governor of the islands.

## COMMERCE AND NAVAL POLICY.

Need for International Action.

Mr. F. W. Hirst, editor of the "Economist," addressed a large meeting of the Dundee Chamber of Commerce recently on the Commerce of Dundee and Naval Policy.

He said that, while Britain must have a Navy sufficiently strong to guard her against attack, that was no reason why steps should not be taken to provide mutual and general limitation of armaments. Every expansion in recent years had only whetted the appetites of the firms who sold war material to the Government.

By opposing at two Hague conferences the exemption of peaceful shipping and peaceful merchandise from capture or destruction in a naval war, Great Britain had forced the Great Powers from motives of commercial defence to enlarge their fleets to protect their own merchant vessels from piratical cruisers in search of prize-money.

The idea of war with Germany was too terrible, and also too foolish to contemplate, but he was afraid they were bound to contemplate it in view of the speeches made by some of those who for the moment were in authority.

There would be no relaxation in the friction with German ship-owners and merchants until they in Dundee and their friends in other parts appreciated the danger and insisted upon a remedy. We wanted to have in the country preparations for peace as well as preparations for war. The Government must be plainly spoken to, and we must press for commercial freedom to navigate the seas in time of war, for the immunity of all peaceful commerce from capture, and for the abolition of all floating mines and all contrivances which endangered the life and property of non-combatants. The time had come for all the great industrial and shipping communities in Great Britain, and along the Dutch, German, Scandinavian, and Russian seaboard, to communicate with one another, and with their Governments to take new precautions and get new guarantees against war.—"Daily News."

## VISIBLE IN FOG.

Ships' Direction Recorded.

Considerable interest has been aroused in Liverpool by a demonstration of the working of an invention for use in ships, particularly in time of fog, to show the direction of sounds such as those of the sirens of other ships, says the N. China Daily News.

The apparatus, which is the invention of two brothers named Hodgkinson, consists of a "drum" to receive the sound waves and an indicator. The "drum," which is 9ft. by 5ft., is placed aloft, where it cannot be affected by sounds on the deck, and it is connected electrically with the indicator, which is placed in such a position that it can readily be seen by the ship's officer on duty. The receiver consists of a number of units, each of which receives sound waves from a particular direction. Though sensitive to sound waves they are not affected by ordinary mechanical vibrations. By means of an electrical device a sound wave from a particular direction causes an electrical lamp in a particular position on the indicator to light.

Track Shown by Light.

The position of the lighted lamp shows the position that the ship whose siren is sounding occupies with regard to the ship which carries the apparatus. The lamp remains alight until seen by the officer on duty, who can then switch it off. If the other vessel is moving different lamps light in succession, showing the vessel's course.

It is claimed that the apparatus indicates the direction in which a vessel blowing a fog horn is travelling—whether she is going ahead, astern, or on either side. If there are several ships in the vicinity the recording lights from any of them can be shut off until the position of the others has been observed.

Exhaustive tests, extending over eight days, have been made on the Mersey in misty and windy weather. The sounds made by the fog horns of steamships and the whistles of railway engines were recorded.

## REPELLING BUBONIC.

Vigorous Measures in America.

During the past few weeks news reports from Porto Rico and Cuba have told of the appearance of bubonic plague in those islands. At the same time says the "Outlook," they have carried the reassuring information of prompt and vigorous measures adopted by the insular authorities and by the Public Health Service of the United States to prevent the spread of the disease beyond the points at which it first appeared, and to eliminate it within the infected area. Up to the July forty-five cases of plague in human beings were reported from Porto Rico—all of these, with one exception, occurring in the port city of San Juan or in its immediate neighbourhood. Three cases were reported from Havana.

On July 27 a plague-infected rat was found in New Orleans, marking the first foothold gained by the disease in any of the cities of the Atlantic and Gulf coasts, in all of which careful watch was being kept for its appearance. Other plague-carriers may be discovered in the course of the war of extermination that has been stated against rats in the various cities, but in view of the strict quarantine that is being enforced against them on all vessels arriving from West Indian and South American ports there is small likelihood of any general spread of the infection or of its communication to human beings in any part of the country. The most striking feature of the announcement that the plague actually was at the doors of the country was that it created no public alarm or uneasiness. Twenty years ago, or even ten, there would have been very marked apprehension over such a situation. This changed attitude is due to the fact that medical research within the past two decades has identified the cause of the disease, has determined how it is transmitted, and, most important of all from the practical side, has shown how it can be controlled and prevented from spreading. When the plague was shrouded in mystery, when it traveled by unknown channels and struck without warning, when nobody knew how to avoid its scourge, the announcement of its approach caused a very panic of fear. Then Yersin and Kitasato discovered the micro-organism that is the causative agent of the disease. Simond and Verbitski traced its actual transmission in the bodies of rat fleas. Other workers, building upon the investigations of these pioneers, have demonstrated that the destruction of the rat that carries the flea that harbors the germ means the elimination of the disease itself. As a consequence of this gradually acquired knowledge, while we dread the plague no less than before, our chief concern upon its approach is that the machinery for preventing its spread shall be put promptly and effectively into operation. There can be no complaint on this score in the present instance.

Ship's Engineer's Death at Shanghai.  
Mr. Frederick Williams, an Englishman, aged 56, engineer of the Kailan Administration company's steamer Kaiping died last week after a brief illness at the general hospital at Shanghai.

## Notice

SAINT-RAPHAEL

TONIC, RESTORATIVE, DIGESTIVE WINE Very palatable.

Known throughout the world and prescribed in all cases of Anemia, Debility and Convalescence, to young women, children and the aged. Invaluable in hot climates.

DOSE: One wine-glass after the two principal meals. Each bottle of genuine VIN SAINT-RAPHAEL bears, in addition to the registered trade-mark:

(1) THE WARRANTY STAMP OF THE UNION DES PROPRIETAIRES. (2) A METAL SEAL advertising CLETEAS. CLETEAS is a MELISSA and MINT cordial, purely and completely prepared. To be taken on a lump of sugar. COMPAGNIE du VIN SAINT-RAPHAEL, Valence (Drôme-France). CALDERON MACDONALD & Co., Hongkong.

## HOW TO DRINK O.T.

Add a small quantity of O.T. with crushed ice if desired, to any aerated beverage to improve the flavour and form a blend that is most grateful and more powerful in allaying thirst. A small quantity of O.T. improves the flavour of whisky or gin in a remarkable manner and lessens the intoxicating effects.

## A MORNING PICK-ME-UP:

O.T. is invaluable as a morning "Pick-me-up." O.T. and Hiram will be found a satisfactory "Square-up." It is wise to always keep a bottle in the home.

### The Hongkong Telegraph.

HONGKONG, SATURDAY, OCTOBER 5, 1912.

### DEAR FOOD AND TARIFFS.

Scarcely a day passes which does not record some fact or other pointing to the circumstance that the dear food cry is becoming general all over the world. We have seen how the workers of England are groaning under the burden, how sorely the pinch is being felt in Germany and even in the United States, while only a few days since the International Congress of Chambers of Commerce expressed itself in favour of a proposal to call an international conference to consider the causes of, and if possible to remedy, the marked tendency towards increased cost of living. In considering this question it has to be observed that the evil is making itself felt in other than Protectionist countries, for the case of Britain is especially pertinent. Hence the root cause is not to be sought in the Tariff, a point which merits greater notice than it is given. To that aspect of the subject we shall return later in the course of these observations.

The question of wages, of course, is closely wrapped up in this matter of the cost of living, for one naturally reacts on the other. It is not generally remembered, for instance, that increased wages contribute most materially towards higher prices of manufactured articles. But this is the case to so great an extent that the price of manufactured articles is determined principally by the wages paid in the cost of their making. And in this connection it is worth considering that, after all, food and most raw materials are, in a sense, manufactured articles, for coal and ore have to be dug out of the ground, corn has to be sown, harvested, and transported, while cattle have to be raised, transported, and slaughtered; and all these activities involve payment of wages to workers. And the more wages paid and the lesser number of hours worked per man, the greater becomes the cost of production. To what degree the price of food has risen in recent years in Britain, to take an example, may be gleaned when it is pointed out that the price of bread rose by 14.8 per cent. in the decade ending 1910, sugar advanced by 24.3 per cent. in the same period, while the cost of bacon went up by no less than 28.9 per cent. These commodities, it is to be remembered, form the staple diet of the poorest of Britain's workers. And the worst feature about it all is that wages in the United Kingdom so far from advancing proportionately, have remained practically stationary. In contrast with this, wages in the United States have decidedly increased, though, of course, this has in turn contributed to the rise in the cost of living which is also apparent in America, as elsewhere.

Clearly, therefore the increased cost of living is due, at least in great part, to causes other than the tariff. The unfortunate thing is, however, that the average elector at Home will not study the question sufficiently to grasp this point. He sees a dear food problem in the countries which Tariff Reformers hold up for admiration; the most is made of the circumstances by politicians on the stump; and he declines to pursue the matter further. With the majority of voters of this type the prospects of the Unionist party at the next election are not too bright, if the party supports Mr. Bonar Law in his declaration that Tariff Reform must be the first item on the list. But the question will not be decided on its merits nevertheless. In any event, if Mr. Pike Pease is right and a pledge has been given to the King that Home Rule will be submitted to the country before it becomes law, Tariff Reform will not form a material plank in the Unionist platform until at least the next election has gone.

### DAY BY DAY.

Trust neither the praise of a friend nor the censure of an enemy.

#### Signalling.

The Collective Test in Signalling of all British Units and H.K.S.B.R.G.A. will be held on Monday.

#### Station Leave.

Station leave has been granted to Lieuts. H. G. Paris and D. S. Dodgson, R.G.A. from 4th to 13th October.

#### H.E.'s Visit to Macao.

His Excellency the Governor leaves this afternoon by the s.s. Sai Tai to pay a formal visit to the Governor of Macao.

#### The s.s. Rubi.

The s.s. Rubi arrived from Manila to-day in charge of her new commander, Capt. J. Miller. She brought up 100 tons of general cargo.

#### Twelve Strokes.

A boy from Wanchai was sentenced to twelve strokes by Mr. O. D. Melbourne, at the Police Court, to-day for stealing clothes valued \$3.

#### Kailan Mining Administration.

The total output of the Kailan Mining Administration's mines for the week ending 21st Sept. amounted to 28,576 tons and the Sales during the period, to 19,031 tons.

#### "The Cook."

A musical play, entitled "The Cook," an idyll of the Peak, by Lieut. R. M. Crosse is to be given in the Theatre Royal on October 18 and 19. It is to be preceded by a grand variety entertainment.

#### Rating Reminder.

Owners and occupiers of tenements are reminded by the Treasury that rates for the four quarters of 1912 are payable in advance on or before the 31 October, 1912.

#### Alleged Wounding of Wife.

A man was remanded at the Police Court, this morning on a charge of cutting and wounding his wife by stabbing her at Wanchai. Inspector Molloy said the woman was in the hospital and would not be out for a week.

#### Embargo Removed.

It is notified in the Government Gazette that information has been received from the Government of Eastern Bengal and Assam to the effect that the quarantine restrictions imposed against the port of Hongkong have been withdrawn.

#### Hongkong Christian Union.

The first meeting of the Hongkong Christian Union, for the season, will take place Monday next at St. Paul's College at 5.30 p.m. Rev. H. R. Wells who leaves the Colony on the 8th inst. has kindly consented to conduct the meeting.

#### "At Home."

To-day being the second anniversary of the establishment of a republic in Portugal the Portuguese consul Mr. J. J. Leiria was at Home at the consulate this morning. There was a good number of callers to congratulate the consul and accept of the hospitality that was dispensed.

#### Covered with Blood.

It is alleged that five or six men attacked a youth in a shop in Gilman Street this morning with knives and after stabbing him and holding him up relieved him of \$1,050, and making down to the wharf, got away in a sampan. The unfortunate man was covered with blood when he arrived at the Police Station though his injuries are not very serious.

#### Tenders

The following tenders are invited by the Hongkong Government:—Repairs to No. 5 Police launch. Supply of aerated water; bedding and clothing; beer, spirits, wines, etc.; spirit of wine; chemicals, drugs, surgical instruments and sundries; furniture, etc.; milk, etc.; provisions; sundries; and washing; required locally for the Medical Department, for the period of one year from the first of January next inclusive.

#### Catholic Out-door Procession.

To-morrow being Rosary Sunday, there will be an open air procession at Kowloon, in honour of the Blessed Virgin. The Procession will leave the Church of the Holy Rosary, Chatham Road, at 5 p.m., and will be accompanied by the band of the Philharmonia. After the procession Father Gabardi will preach, and the festivities will close with Benediction of the Blessed Sacrament.

### VICTORIA GAOL.

#### STARTLING ALLEGATIONS FROM RELIABLE SOURCE.

Warders Dissatisfied and Staff Changes Fairly Common.

Some startling information regarding the state of matters in Victoria Gaol has reached us from a well informed and reliable source. About the beginning of last month two warders ran away from the gaol. One had done some eight months service and the other was a warder of about two years experience. The latter was all the more useful, an official in respect that he had secured a second-class certificate for spoken Cantonese and, in addition, was studying the written language; in fact, was a useful Government servant who promised to do well in the service. The fact that these men have deserted points to something at fault in the system at work in the gaol as it affects warders.

#### The Chief Grievance.

If our information is correct—and we have no reason to doubt it—there are deep-rooted grievances amongst the warder in the gaol. The chief is that the staff is inadequate, and from this fact spring other causes of discontent. There are in the gaol, one chief warder, three principal warders and sixteen ordinary warders on the disciplinary staff. On the hospital staff are:—one warder, two Indian warders, and about 50 assistant warder and guards—all Indians. The Europeans officers are held responsible for the supervision of the Indian warders, and guards and, since the latter are not instructed as to the rules and regulations regarding the care and conduct of prisoners, it is claimed that this throws an added, and an unfair, responsibility upon the European officers who are, in consequence, more discontented than they should be, or would be if matters were fairly adjusted.

#### Work Too Hard.

The work of the European officers is too hard at the best, and when a warder is taken to hospital or is granted leave duties must be performed by the remaining warders who have sufficient to do in ordinary circumstances and who, in a case of this kind, suffer the great inconvenience of irregular meal hours. They are, in point of fact, forced to snatch their meals as best they can.

As indicative of the deep-seated discontent and as a proof that all is not as it should be, it is stated that during the past few years, there have been between 50 and 60 resignations, dismissals, and desertions from the staff of warders to say nothing of the Indians who have left.

The warder's hours are long. He starts work at 5.30 a.m. and 6.15 a.m. and finishes at 6 p.m. and 5 p.m. on alternate days. His meal times on these days total about 3.1-4 hours and 2½ hours respectively. He gets one Sunday off in two and each alternate Saturday afternoon. For this he may receive anything from about \$80 to \$130 a month according to length of service. We have before us as we write a copy of the prison regulations obtaining at Home, and, taking these as a standard, it is clear that there is reason for the continued and deep-seated discontent which prevails.

Not so long ago a prisoner escaped from the gaol, was recaptured, and tried at the Supreme Court. In his evidence, given there, the Chief Warder stated that the man escaped by means of the window after prizing open the bars. But how did he force open the bars? And with what? And from whence came the instrument which permitted of his forcing them? And how did he find the time and yet escape observation?

These are pertinent questions, to which answers are necessary. Was the escape wholly due to negligence on the part of any one warder? Will it be believed, that the conditions obtaining in the prison are at times insanitary to a degree? From Saturday at 11 a.m. till Monday morning prisoners are free from work. At that hour they are retired to their cells—and there may be three or more in a cell. At 11 a.m. on Saturday the sanitary buckets in

placed in the cell and is not removed until 6 a.m. on Sunday. It is there emptied and replaced, and it remains in the cell until 5.30 a.m. on Monday. How unhealthy that is for prisoners can readily be imagined, nor is it greatly better for warders who have to supervise the removal and emptying of these buckets. On no score can such a state of matters be justified. In the present state of things, with gaol accommodation limited, the overcrowding may be unavoidable, but there is no excuse for positive uncleanness in respect of sanitary buckets. Each prisoner, not European, is allowed two pieces of sanitary paper daily? European prisoners are allowed four pieces, but that is a concession recently granted. We understand that they are about 6 inches by 4 in size, are thin almost to transparency, and form an excellent example of ridiculous economy.

Two more points:—Is it true that, when a recent prisoner who escaped from the Civil Hospital, was removed there, there was plenty of room for him in the prison hospital? Is it true, again, that old kerosene tins are collected in all Government departments and made into dishes in which prison food is served? If these questions are answered—and perhaps if they are not—we may ask a few more.

### SOLDIER'S STRANGE ACTION.

A soldier of the K.O.Y.L.I. who was undergoing a musketry course at Kowloon with his detachment, left his detachment this morning and came to Hongkong with cartridge belt and bayonet. At about 11.45 a.m. he entered the shop belonging to Wong Hing, jewellers, Queen's Road, walked up to the counter on the right, which contains glass show cases, and drove his bayonet into one of the cases. He seized a gold watch, which was being repaired, and walked out. He proceeded down Pedder Street and accosted a constable on duty in front of the Hongkong Hotel. He asked to the arrested, at the same time displaying the watch with remark, "Look me up—I have stolen this watch." His request was promptly gratified and he was taken to the Police Station and there awaits a military escort.

PROSPECTS OF BASEBALL IN THE COLONY.

The two greatest baseball teams of the United States are about to start on a tour of the world, playing exhibition games, and games at any port where a team can be got together to meet them.

To Americans familiar with national game, the names of "The Giants" (National League), and the "Boston" (American League) will at once convey pleasurable anticipations.

These two teams have scheduled Hongkong as one of their "ports-of-call," and it is to be hoped that the citizens of the United States now resident in Hongkong, will "get together" and organize a team, so that the veterans of many "diamonds" will be able to play their own countrymen, far from the Polo Grounds as they are!

We understand that many Americans here who are keen to organize such a team, are only too willing and glad to practice regularly,—in short to do all that lies within their power to give the visitors "of their best."

The U.S.S. "Wilmington" has a number of good ball players, and from the Standard Oil Company many more are eager to "get into the game."

Doubleless grounds for practice will be offered by one or more of the Recreation Clubs, as the Briton is first and foremost a good sportsman, and although baseball is not his game, still he would do all that lies in his way to help on the sport of England's greatest friend.—America.

The Y.M.C.A. too, should develop some excellent material, and by dint of "getting together" the Americans here should be able to give a very creditable exhibition game against the visiting teams.

#### Lusitano Club.

This evening the Lusitano Club are giving a dance in commemoration of the second anniversary of the establishment of the Portuguese Republic.

### PLEA FOR LENIENCY.

At the Police Court this morning, before Mr. O. D. Melbourne, Herbert D. Haynor, of Messrs. Clark and Co., charged a man with receiving money under false pretences.

The complainant said that prisoner was formerly in his employ for about a year, but he was discharged about four months ago because he was rather lazy. At that time the prisoner was not dishonest. During the last three months, however, he had been missing amounts and, on several occasions when he sent the shroff to present an account, he would state that the amount had been paid and receipts shown bearing the name of the firm.

On Thursday prisoner went to Mr. Poria, of the Eastern Extension Telegraph office, and collected \$6. He then went to the office of Messrs. Showan Tomes, and was told to call the next day. Half an hour afterwards complainant's shroff called at Messrs. Showan Tomes' office and was told that he had been asked to call on the following day. The shroff pointed out that he had not previously called, and complainant then went to Messrs. Showan Tomes and requested them to send for him if the man who called to collect the account returned. When the prisoner called next day, complainant was sent for and prisoner was arrested.

Complainant further stated that he could prove six charges against the prisoner similar to this one, and also one of forgery, for he had forged his shroff's name, but he did not wish to press those charges as the prisoner was young, and complainant did not wish to punish him too much. He would ask his Worship if it was not too presumptuous, to deal leniently with the prisoner. Perhaps a few strokes would deter him from returning to this kind of life.

Prisoner was sentenced to one month's hard labour, and four hours' stocks.

### HONGKONG & SHANGHAI BANK.

#### The New Compradore.

As was announced yesterday, Mr. Ho Sai Wing has been appointed Compradore of the Hongkong Banking Corporation in place of Lau Pan Chin, who is missing. Mr. Ho Wing is the son of Mr. Ho Tung and is twenty-nine years of age. He was educated at Queen's College and after spending about a year in travel, most of which was spent in England, he returned to Hongkong and became compradore to Messrs. E. D. Sassoon and Co., with whom he has been for the last five years. During that time he has also been assisting Mr. Ho Fook, the compradore of Messrs. Jardine, Matheson and Co.

### SEPTEMBER WEATHER.

Extracts from meteorological observations made at the Royal Observatory, Hongkong, during the month of September show that the average mean temperature was 79.6, the average maximum 85.5 and the average minimum 75.5. The highest temperature recorded was 92.5, on the 10th, and the lowest 68, on the 17th. The mean humidity for the month was 71.

Sunshine was recorded on every day of the month with the exception of the 17th and 20th, there being eight days when more than ten hours were recorded. The total number of hours' sunshine was 220.6.

Although rain fell on eleven days, one ten of these the rainfall was less than an inch. The total rainfall was 3.88, inches. The average barometer reading was 29.82.

### SOLDIER CHARGED WITH MURDER.

At the Police Court, this morning before Mr. O. D. Melbourne, Sarfaraz Khan, a private in the 126th Baluchistan Regiment, was remanded on a charge of killing and slaying another private at the camp at Sha Kong Mia on the 28th ult.

#### Inspector Kerr asked for the record.

### NOTES AND COMMENTS.

#### Hongkong and Aviation.

The refusal to permit an aviator to fly over the Colony was not, we may safely assume, made lightly; and recent regulations, which make it necessary to secure the Governor's consent in writing in order to fly here, explain the action of the authorities. The spirit which prompted it, however, is surely somewhat un-British. We have always prided ourselves upon our openness, our contempt for passports and other careful measures adopted by Britons have been too carelessly open in the past,—though no great harm appears ever to have been done—but, in any case, secrecy and (shall we say?) timorousness of this kind come awkwardly from us.

#### What would Happen.

A note in this paper yesterday asked what would happen if the aviator were accidentally blown over the harbour. Perhaps the same that happened to the miner's pigeon which he carried to a certain town on a Sunday in order that it should fly home. A policeman advised him that a local bye-law prohibited birds from flying there on a Sunday. He addressed the bird solemnly, "Ye're not to fly," said he, "so ye mun walk home." And he set it down. Nothing happened to the bird, for the sufficient reason that it was not caught. And, as between an aviator and, say, a chasing policeman, the odds are on the man in the air.

#### Mr. Roosevelt's Daughter.

It is rumoured in New York that Mr. Nicholas Longworth, who, some few years back, married Miss Alice Roosevelt, may succeed Mr. Whitelaw Reid as Ambassador to the Court of King George. With an amiable—and tasteful—frankness, an American newspaper observes: "It would be interesting to note just how old-fashioned Queen Mary, with her straight (sic) laced ideas, would think of unconventional Mrs. Longworth and her up-to-the-minute ways." With all deference to our more frisky than grammatical contemporary, we would suggest that, should Mrs. Longworth go to the Court of St. James she will quickly discover that an American ambassador must conform, as fully as any other, to accepted Court traditions. True, Queen Mary is "old-fashioned"; it is a term not infrequently applied to those who cherish an ignorant preference for a ladylike self-restraint, and a rooted objection to such Washington ways as may merit the designation of "up-to-the-minute." The rumour itself is, however, apparently not too well founded; for a New York journal has stated quite recently that Mr. Roosevelt has given instructions to the progressives in Mr. Longworth's State to support the latter's opponent in the congressional election.

#### The Bathing Places Scheme.

The fact that a sum of \$2,000 has been set aside in the Budget for 1913 for the provision of public bathing places at the western and eastern ends of the island of Hongkong is most gratifying to those who revel in sea bathing but who cannot afford the luxury of ashpit trips. At both ends of the city there are ideal little strips of foreshore which will make splendid bathing spots. It is intended, we note, to erect sheds for the accommodation of bathers, but no indication is forthcoming as to whether the public will be charged for the use thereof, or whether these sheds will be of such a nature as to provide absolute privacy to those using them. Would it not be better to instal a number of bathing machines of the type seen at Home? The concession could then be let out and the lessee permitted to make a small charge. Or, if it is intended that the pleasure should be open to bathers free of charge, the present plan could go forward but be supplemented by bathing machines for those who prefer them and who would not object to paying a small fee. All classes would then be catered for, and moreover the bathers would present an appearance more in keeping with the Home style.

**"OUR BURGLAR."****ESCAPED FROM PRISON AT 4 O'CLOCK THIS MORNING.****"STONE WALLS DO NOT A PRISON MAKE."**

—Not when a man digs a hole in them, as was done this morning. The Peak burglar has escaped. He stole away from prison about four o'clock this morning, and the Police are now anxiously inquiring after him. They tried to look unbecomingly early to-day, and as though nothing out of the common had happened, but there was an air of excitement abroad that could not be concealed. Indeed, before the morning was over, Sergeant Adlington had to admit that "things were upside down."

The police were not disposed to give any information regarding the matter. The inspector on duty in the charge room, filed folio after folio with charges, and officers flitted about from the offices of the chiefs to the telephone room, and backwards and forwards with suspicious regularity.

"Did he leave any message?" the inspector was asked jocularly. The official smiled when he said "who?" but would not commit himself.

It was not from this source that we were informed of the facts of the case.

It appears that from dark yesterday, the escaped man, who was awaiting his trial at the sessions for burglaries to which he had pleaded guilty and charges to which he had pleaded not guilty, was very busy on the Northern wall of the goal with some instrument or other, which possessed extraordinary powers of excavation. In the night and the dark hours of the early morning he pecked and bored away at the wall which is at least two feet in thickness, until he succeeded in making an aperture that led on to the European cook-houses of the police compound. Dawn was very near when he had completed his task and knowing, it may safely be assumed, the time at which the night men are relieved by the day staff, he evidently decided it would be fatal to delay his departure a moment later. About four o'clock he said good-bye to his "plank" and inhaled the fresh breezes from the Peak, a glance at that quarter must have caused him amusing reflections.

The fact that the wall was so thick gives rise to the suspicion that the burglar must have had inside assistance.

Later in the morning Sergeant Adlington had to mention the matter to Mr. Irving. His worship asked if a certain man who was charged before him had any previous convictions and the Sergeant replied that he had, but the delay in getting the information the Bench required was in consequence of the turmoil in the office in consequence of getting out descriptions concerning the escaped burglar. "Things are upside down" said the officer, and his worship smiled.

Another story states that the man escaped from the goal over the wall into the compound of the Police Station, over the latrine at the back of the charge room a place he would be able fully to size up whilst standing in the dock when brought before Mr. E. A. Irving to stand his trial. From the dock he would be able to make a useful mental note of the possibilities of escape by the wall behind the charge room. On examination of the wall it is, however, difficult to conceive how he could have reached the ground without causing such injuries to himself as would prevent him from getting clear of the compound. Then, again, it is stated that a European sergeant was sitting out in the compound all the night and he would have seen him if he had endeavoured to get clear of the walls of the compound.

From one who is well informed we have it that he made his escape from the cell by digging a hole through the wall but it is a matter of conjecture how he made complete his escape. It is also stated that he worked on the wall with an iron bar and that, as he removed the bricks and mortar from the wall, he covered them up with his blanket that lay across his plank. When he was told, on being arrested, that he would not be free again for ten years he is alleged to have remarked "miskeo."

At the time he escaped he was undergoing a sentence of twelve months meted out to him by Mr. Irving for returning from banishment, and was also awaiting trial at the Criminal Sessions for burglary.

It is also stated that one of the principal witnesses against the man, when told that he had escaped, said "I am glad" and said that he did not want to waste his time going to the Court to give evidence.

The man is still at large and, though there are any number of police on his track, it is hardly likely that one who has been so ingenious as to escape in the manner that he did will be brought to book as quickly as some of the officials expect.

Mr. King, Assistant Superintendent of Police, when asked if he had anything official to communicate in connection with the escaped Peak burglar said "It is common property that he has escaped from goal, but we cannot say how or when."

**Convicted Many Times.** We are informed that the prisoner, who bears several aliases has already been convicted many times. In fact, since 1903 he has been convicted nine times and in the case of eight of these the sentence entailed banishment. Either in 1909 or 1910 he escaped from prison while undergoing sentence and subsequently he was captured for that offence and sent to prison for six months with the attendant sentence of banishment.

The first conviction which he sustained was for entering and since then he has been dealt with three times on charges of stealing and the rest for offences under the banishment ordinance. In the period of nine years under review he has spent six years and six months in prison while under the banishment orders he appears to have been away for one and a half years, assuming that he left the colony after each liberation and returned only shortly before his next capture.

On the last occasion he was sentenced, he was banished presumably for five years at the least. That was as recently as May 21 and yet we find him stealing again as early as July. To many it appears that the banishment sentences are not so effective as could be wished.

**Ceiling Bye-laws.** The new bye-laws respecting the removal of ceilings, stair-linings &c., which were given in full in the "Telegraph" of August 28th last, have now been finally approved by the Legislative Council and appear in the current "Government Gazette."

**Ordinances Approved.** His Excellency the Governor has given his assent, in the name and on behalf of His Majesty the King, to the following Ordinances passed by the Legislative Council:—An Ordinance to amend the Larceny Ordinance, 1895; An Ordinance for the further relief of Inspectors; An Ordinance further to amend the Magistrates Ordinance, 1890; An Ordinance to extend the power of Revenue Officers to arrest without warrant; An Ordinance to amend the Post Office Ordinance, 1900.

**To be Struck Off.** It is notified in the Government Gazette that at the expiration of three months, Dunning and Company, Limited, registered on the 19th July last, will, unless cause is shown to the contrary, be struck off the Register and the Company will be dissolved.

**His Excellency's A.D.C.** His Excellency the Governor has been pleased to appoint Lieutenant Francis John Wyley, King's Own Yorkshire Light Infantry, to be his Aide-de-Camp, with effect from the 18th September, 1912.

**New Volunteer Lieutenant.** His Excellency the Governor has been pleased to appoint Mr. Robert Hall to be Lieutenant in the Engineer Company of the Hongkong Volunteer Corps, with effect from the 25th instant.

**Labour.—Contract Javanese men, 308; women, 87; Free bandieries and Malay paddy planters, 70; total 465. The amount of contract labour should be sufficient to bring the 1533 acres into bearing, but when tapping really commences on a large scale in beginning of 1914, another 100 men must be obtained, and it would be better to obtain them early in 1913 in order to train them and have a good supply of skilled labour on the Estate when tapping becomes heavy.**

**Unplanted area of 500 acres.—375 acres have been felled of which the Malays have partially cleared and are planting in paddy some 300 acres. There are now 125 acres standing in jungle, most of which is only secondary growth and therefore easy to cut and clear. All this will be felled before the end of the year.**

There are now 125 acres standing in jungle, most of which is only secondary growth and therefore easy to cut and clear. All this will be felled before the end of the year.**

**COMPANY MEETING.****The Sengel Rambah Rubber Co., Ltd.**

The second annual general meeting of the above Company was held at noon to-day at 8a Des Vaux Road, those present being Messrs. A. Denison (chairman), W. L. Pattenden, C. D. Wilkinson (directors), A. B. Rouse and R. F. C. Master.

The Chairman said:—Gentlemen,—The directors' report and accounts, together with the auditors' certificate having been in your hands for some time, I will, with your permission, take them as read.

There is very little I can say that is not contained in the report. The trees appear to be coming on as well as can be expected and they are practically free from disease, and the estate has been brought to its present stage at a reasonable cost. The health of the people on the estate is also satisfactory.

The negotiations for the sale of the Company's property and assets to a London Company were not carried very far as the offer made was, in the opinion of your directors and the Sumatra shareholders, not nearly good enough. By calling up the balance of the capital we expect to complete the development of the estate and keep the whole of it in our own hands, whereas by accepting the London offer we should have parted with half our interest and the estate would not have been any better off; in fact, the expenses of management would have been far heavier. If any shareholder desire to ask any questions I shall be pleased to answer them to the best of my ability.

There being no questions, the report and accounts were passed. The appointment of Messrs. W. G. Pattenden and C. D. Wilkinson to the Directorate was confirmed, and Mr. Pattenden was re-elected.

Messrs. Lowe, Bingham and Matthews were re-appointed auditors.

**Directors' Report.** The report of the directors stated:—

The directors beg to submit the report and balance sheet for the year ending July 31st, 1912. Of the authorised capital, namely 40,000 shares of £1 each, 50,000 have been issued, and 15 have been paid on same.

**Cultivation.** In the report of July 31st, 1911, it was stated that 100 acres would be planted in September, 1911. These 100 acres were planted in September, and, according to a previous agreement with the natives, were afterwards planted by them in paddy. When the paddy crop was gathered in March, 1912, our manager found so many vacancies that he considers it best to call this cultivation May 1912 as so many supplies had to be put in that month. At present we have planted in rubber:—500 acres planted Oct. Dec. 1909; 201 acres planted Jan. Feb. 1910; 99 acres planted Sept. 1910; 200 acres planted Mar. May 1911; 100 acres planted May 1912. 800 acres were planted 20 by 20 or 108 trees to the acre, whilst the last 300 acres were planted on the triangle system 18 by 18 or 135 trees to the acre.

**Cocoanuts.**—33 acres, May 1911; 400 acres, May/Sept. 1912. In May of the year 110 acres were planted, 100 acres in June, and another 100 acres in August, and at date of last manager's letter the remaining 90 acres would all be planted out by or before the end of September.

**Unplanted area of 500 acres.—375 acres have been felled of which the Malays have partially cleared and are planting in paddy some 300 acres. There are now 125 acres standing in jungle, most of which is only secondary growth and therefore easy to cut and clear. All this will be felled before the end of the year.**

**Labour.—Contract Javanese men, 308; women, 87; Free bandieries and Malay paddy planters, 70; total 465. The amount of contract labour should be sufficient to bring the 1533 acres into bearing, but when tapping really commences on a large scale in beginning of 1914, another 100 men must be obtained, and it would be better to obtain them early in 1913 in order to train them and have a good supply of skilled labour on the Estate when tapping becomes heavy.**

There are now 125 acres standing in jungle, most of which is only secondary growth and therefore easy to cut and clear. All this will be felled before the end of the year.**

The above force must be augmented should it be decided to plant up, during 1913, the unplanted area of 500 acres.

**Expenditure.**—The cost of draining still remains, and is likely to remain, a rather more heavy item than at first anticipated, the soil so quickly filling up the drains after each heavy rain.

**Growth of trees.**—A census of the growth of trees has been taken of first 70 acres planted. Block 1, the first area planted, gives a return of 33 per cent over 10 feet at the end of 2½ years, this got the full benefit of the rainy season as and after planting. The trees planted later, which in a younger stage had to stand the droughts of February, March and April, have come on slower. The whole 700 acres show a growth of 20 per cent over 10 feet at 3 feet from ground.

After September, when the coconut cultivation is finished, it is intended to deepen out all the old drains and also to make some new drains in this first cultivation of 700 acres, and then to dig the ground to within 3½ ft. of each tree to a depth of 15 feet. There is no doubt that a more extensive system of soil cultivation will greatly increase and quicken the growth of the cultivation, and enable us to tap towards the latter half of 1913 or more especially the first half of 1914 a very much larger percentage of trees. The 3½ ft. round the trees will be forked so as not to damage the roots.

**Calls.**—It is proposed to make a call of 2/6 on the 1st October, which will bring us in £6,250 and this should carry us on well into next year. It is also proposed to issue the remaining 10,000 shares at a premium of 2/6 per share and 17/6 paid up, which will bring us in another £10,000. We shall then be able to build a permanent manager's house and a rubber factory, and to carry out the cultivation of last 500 acres. By the beginning of 1914 the planted area of 1533 acres should be self supporting, and it is anticipated that at about the end of that year a dividend will be declared.

**Directors.**—Since the last annual meeting Mr. G. Balloch and Mr. H. Pinckney have left the Colony, and Messrs. W. L. Pattenden and C. D. Wilkinson were respectively appointed to fill their places. Their appointment requires confirmation. Mr. W. L. Pattenden, having taken the place of Mr. G. Balloch, retires by rotation, but, being eligible, offers himself for re-election.

**Auditors.**—Messrs. Lowe, Bingham & Matthews retire and, being eligible, offer themselves for re-election.

**OXFORD LOCAL EXAMINATION.** The results of the Oxford Local examination held in July last in connection with the following schools have been received by telegram:—

St. Stephen's College: Seniors:—Lam Fuk; Li King Hong; Mok Hing Kin; Ng See Ho; Tsang Hing Wo; Wong Po Kie. Juniors:—Au Kim Kwong; Fu Ping Sheng; Hau On Wa; Chau Sai Tim; Poon Yau Chi; Wong Shiu Fan.

**Preliminary.** Chan Ying Cheung; Chiu Kwok Tung; Chung Ying Lau; Man Sai Tai; Tsang Yan Tei; Cheung Sau Wa. St. Stephen's Girls' College: Senior:—Junior:—Chiu Yee Ching; Liang Yat Kwan; Sheo Wai Ching. Preliminary:—Lai Fai.

**C. M. S. Girls High School.** Junior:—Woo Mei Yee. Preliminary:—Mn Kam Sim; Un Pak Sun.

\* These candidates have gained distinction.

A duly qualified Doctor is carried. Refused:—Fares: Cargo booked through for all Australian, New Zealand and Tasmanian ports.

For Freight or Passage apply to Butterfield & Swire. Telephone No. 16.

**ANOTHER BURGLARY****Bowen Road Filter Beds.**

This time it was perpetrated by three men! Mr. Ross, who is the Superintendent of the Water Filter Works on Bowen Road, is the victim, he says:

"I was out for the evening, and returned at half past twelve; everything was as it should, be as to which far as I could see. As I was going to bed I heard a strange noise, and by a 'strange noise' I mean one that I am not accustomed to."

"Out I went,—half dressed,—to see if anything had happened to the filters. Everything seemed quiet and I went back to bed. The next thing that I heard was a crash of glass. I jumped up and ran downstairs,—little thinking that I should find anyone in the house. The next thing that I heard were two shots in rapid succession, and the yelp of one of my favourite dogs."

Showing the dining room to a representative of the "Telegraph," Mr. Ross said: "When I came in, there were three of the scoundrels helping themselves to my silver and pewter ware! They had cut out a pane of the window so that they might lift the sash to gain entrance."

"The instant that they saw me they ran like rabbits, and I ran for my shot-gun. It was only loaded with No. 6's—to be sure—but I peppered one of the thieves just as he was turning the corner—here!" (Mr. Ross showed the place, and there are blood sports visible.)

Continuing Mr. Ross said: "The thief dropped his loot and screamed terribly. I only hope that I have at least cured him of his thievery!"

"My loss is one silver tea set, part of one pewter set, and a silver cigar box.—Several other pieces were found where the wounded man dropped them."

Mr. Ross adds that he blew vigorously on his police whistle, and that although two distinct and separate shots were fired, he could get no answering blast.

"What is the use?" Mr. Ross added,—a man might be robbed, killed and buried in this part of the world, and no-one be the wiser!"

Sergeants Murphy and Grant are on the case, but it is understood that, so far, they have been unable to obtain any clues as to the robbers.

**Today's Advertisement** FOR SHANGHAI, KOBE AND MOJI.

**THE Steamship** "DILWARA." Captain W. J. Bishop, will be despatched for the above ports on SATURDAY, the 12th inst., at 1 p.m.

The Steamer has superior accommodation for passengers, is installed throughout with Electric Light and carries a duly certified doctor. RETURN TOURS TO JAPAN (Occupying 20 days).

The Steamers leave about every 3 weeks for Shanghai and Kobe (Inland Sea), returning via Moji, providing a stay of 5 to 6 days in Japan. ## Shipping

HAMBURG-AMERIKA  
LINIE.IN CONJUNCTION WITH  
Deutsche Dampfschiffahrts Gesellschaft "HANSA."

## EAST ASIATIC SERVICE.

Regular Sailings from JAPAN, CHINA and PHILIPPINES,  
via STRAITS and COLOMBO.

Marseilles, Havre, Bremen and Hamburg and New York.

Taking Cargo at Through rates to all European North Continental and British Ports, also Trieste,  
Lisbon, Oporto, Genoa, and other Mediterranean Levantine, Black Baltic Sea and  
Ports, and all North and South American Ports.

## Next Sailings from Hongkong:

## OUTWARD.

For Hongkong, Kobe & Yokohama:  
"SCANDIA".....13th Oct.  
"BAYERN".....17th Oct.  
"LIBERIA".....7th Nov.  
"ALEXIA".....19th Nov.

For Further Particulars, apply to:

## HOMEWARD.

For Rotterdam, Hamburg & Ant.  
S.S. BELGRAVIA.....5th Oct.  
For Havre, Rotterdam & Hamburg:  
S.S. O. J. D. AHLERS.....9th Oct.  
For Havre, Bremen & Hamburg:  
S.S. C. F. LAELSZ.....23rd Oct.  
For Marseilles, Hamburg & Ant.:  
S.S. SACHSEN.....28th Oct.  
For Marseilles, Rotterdam & Hamburg:  
S. SACHSEN.....30th Oct.

Hamburg-Amerika Linie.

Hongkong Office.

## LOG BOOK.

## America wants more Battleships.

Washington, September 30.—The General Board is not willing to accept as final the compromise one battleship appropriation and has prepared a strong recommendation which will be presented when Congress convenes in December for a special appropriation for four additional battleships and two armored cruisers. This report will be submitted to the Secretary of the Navy for transmission to Congress, and will be the basis of the renewed fight for more battleships which was anticipated when Congress voted for but one ship for present fiscal year.

## Far Eastern Vessel in Collision.

The str. Queen Alexandra, from New York August 7, was in collision outside Gibraltar on August 23 with the str. Corona. Both vessels were considerably damaged above says the "N. China Daily News," the water line and put into Gibraltar for temporary repairs. These will cost the Corona £505 and the Queen Alexandra £535. The repairs were put in hand on August 29 and were expected to be completed within about ten days. The latter vessel passed through the Suez Canal on the 10th ultimo.

## CHINA COAST GAZETTE.

Mr. J. McN. Thomson, chief officer, Kwongsang, is on leave.  
Mr. W. Moore, supercargo, Taising, has gone second officer, Suwo.

Mr. E. B. Smith, second officer, Suwo, has gone noting chief officer, Kwongsang.

Mr. J. Tate, chief officer, Suwo, is on leave.

Mr. B. A. Thompson, from leave, has gone chief officer, Kwongjin.

Mr. O. A. Lovgrove, chief officer, Kwongjin, is on leave.

Mr. H. G. Ramsay, second engineer, Yngchow, has gone second engineer, Shengkang.

Mr. P. M. Marshall, second engineer, Shengkang, has gone second engineer, Yngchow.

Mr. R. E. Jensen, from reserve, has gone second officer, Tatung.

Mr. J. Chambers, second officer, Tatung, is on leave.

## LOCAL SPORT

## Bowls Handicap.

The Bowls Handicap, that is being played under the auspices of the C. S. C. on their grounds, bids fair to exceed in interest anything that has been held before.

The Distillers Company, Ltd. of Edinburgh offer a very handsome first prize in the shape of a magnificent set of bowls in a leather case. The second and third prizes will be paid out of the entrance fee,—that is \$1.00.

There is much speculation as to who will eventually win of these players:

O. Bond—scratch; W. Higby—3; J. Wheel—scratch; J. McVier—scratch; E. W. Dawson—scratch; A. M. Thornhill—scratch; H. Langdon 7; A. Harrison 6; R. O. Barlow 7; A. Hamilton 7; J. McKay—scratch; A. G. Pils—scratch; P. Heathcote 5; W. Fincher—scratch; T. Pitt—scratch; J. M. Irving 3; Phillip 6; H. March 1; Y. Fisher—scratch; A. Wibley 1; O. W. Brett 5; W. Gregory 5; W. Bishopt 1.

As the best players in the Colony are entered the competition will be a very keen one.

## To Sail

## THE AMERICAN &amp; ORIENTAL LINE.

FOR BOSTON & NEW YORK via  
SUEZ CANAL.

## SHORT SERMON.

"For thou hast been a strength to the poor, a refuge from the storm, a shadow from the heat."—Isaiah, xxv, 4.

The woman who inspired this sermon was seated in a slow train that stopped at every station.

The afternoon was humid, and the thermometer in the crowded car stood at 92. Men had taken off their coats and women fanned.

Three babies, fretting under the burden of heat and noise, added discordant notes to the uncomfortable situation. Passengers were squirming about in their seats, complaining and fussing.

All but one.

This one was a little woman certainly not less than seventy years old, perhaps more.

A bandage around her neck told of a big boil or carbuncle, than which there are few more aggravating afflictions, especially in summer. Her hands showed that she had done much hard work; her face was a study in patient toleration of sorrow and loss.

Yet with greater cause for complaint than any grown-up in that car, she sat back in the corner of the sticky plush seat, reading a worn Bible.

Once in a while she would close the book and look out of the window, across the steamy fields. Then she would hum "Nearer, My God, to Thee" in a cracked voice.

And when the end of the line was reached, she answered her seatmate's observation that it had been a trying journey by saying "I didn't mind it. I had a good book to read."

Truly in Him she had found a "shadow from the heat," as the Hebrew prophet sang in his joy nearly three thousand years ago. As he sang in that chapter which opens with the triumphant statement, "O Lord, thou art my God."

He was her God,—hers to be a comfort and help in the little journeys of everyday living and living and doing as well as in the larger moods and matters where even the least orthodox are apt to "invoke divine aid."

Her God as He may be your God, if only you will let Him into your everyday lives. For He is your God.

In the homely ways the prophet sings He is revealed as a friend, guide and counselor. A strength to the poor and needy and as a refuge from the storm and as a shadow from the heat He is shown in that relationship which must exist before the human being can comprehend His love and power.

The little old woman on the train was nearer to Him than many who chant of His omnipotence and omniscience. There are millions of persons who do not know what these words mean and who, even if they were taught their meaning, would not find in such qualities anything close akin to their wants and needs.

But when they can be brought to know a God who will make a hard journey easier to bear or a sick child easier to care for or a troublesome household situation less difficult to deal with, they begin to realize that there is some power so ready and so near at hand as to make the ordinary work and cares less burdensome and thus to leave more time and spirit for those higher considerations which make for better living and higher being.

## COMMERCIAL.

## Chinese Tea Trust.

It is reported that the Canton Commissioner of Commerce and decided to establish a Company, or Trust, with a very large capital and in unison with all the great Tea Merchants of China, form a combination, with branches in all important ports of China and in the cities of foreign powers, for the purpose of holding up supplies of China tea and controlling the market; thus doing away with the present considerable fluctuations in the price of beverage. This great combination will be undertaken by the Government and the Tea Merchants in co-operation.

Largest Month's Home Exports Ever Recorded.

The Trade Returns for the past month are highly satisfactory, imports, and re-exports each showing very large increases in value, not only in comparison with August of last year, which month was somewhat affected by the then existing labour troubles, but in comparison with August, 1910; the increases are very substantial, and the comparison is between months of an equal number of working days. The value of the month's exports of the produce and manufactures of the United Kingdom exceeds the previous "record" of £43546,303, which was reached in October of last year.

## Shanghai Share Market.

September 28.

There is little change to record in the tone of the market generally. Cottons have not improved to any extent, and prices on the whole are easier. The value of rubber stocks was maintained, and there was a slight advance in some cases. In comparison with the quotations of two months ago, however, a marked appreciation is noticeable, but, at the same time, the active demand which was in evidence up to two weeks ago has temporarily ceased, and buyers are not much in evidence. The London rubber share market, according to last week's cable advices, has been quiet, which, perhaps, may be partly accounted for by steady and, at present, unexplained decline in the price of raw material. Langkate were sold as low as Tls. 69 for cash three days ago, but there has since been a forward sale at Tls. 63 for December. Settlement Day on the 27th inst., passed off smoothly, and although the amount of business was unimportant, the total was more satisfactory than has been the case for a considerable time.

## THE LAN TAO AFFAIR.

## Sharp Passages in Court.

Owing to an argument, during the hearing of the Lan Tao case, in the Police Court, taking place as we were going to press yesterday, we hold the following over until to-day:

Mr. Lewis:—The other men from the junk are still in police custody?

Sergeant Brazil:—Yes, that is so.

And they have been in Police custody since September 27, and no charge has been placed against them?

After asking the question to be repeated, the sergeant said the men were not in police custody.

Where are they?—I am not in a position to say.

Where are they?—I refuse to say.

Mr. Hodgson said that Mr. Lewis was not representing the other men and it had nothing to do with him. The police had to make a lot of enquiries which were confidential and they would not be passed on to Mr. Lewis or anybody else.

Mr. Lewis:—I have something further than this to ask. From information I have received I ask your Worship to direct the witness to answer the question. Your Worship has the power and, with all respect, I submit it is your duty to ask him.

Sergeant Brazil:—With all respect between you and me, you asked me a question outside the Court and now that you have got the information you are asking me about it in Court.

Mr. Hodgson complained that it was most unfair. Mr. Lewis went round to the police and got information and used it when the case came into Court.

Mr. Lewis asked for an explanation and when Sergeant Brazil asked his Worship if he should tender one he said he would rather not hear it.

Mr. Lewis said he had only heard of the information from his interpreter.

## VOLUNTEER ORDERS.

Corps orders dated Oct. 4 issued by Major D. Macdonald announce parades at headquarters at 5.30 p.m., as follows:—

Artillery Battery:—Monday 7th. Squad & Co. Drill, Tuesday 8th. Specialists, Wednesday 9th. Gun Drill under Co. Officers; Friday 11th. Semaphore Abbreviations. Lecture; Tuesday and Friday Fuzes Setting. Saturday 6th, 2.30 p.m. Trained men Musketry; Sunday 6th, 9 a.m. Trained men Musketry.

Howitzer Section:—Notice:—The first Company shoot will take place next Sunday the 6th inst. at King's Park Range at 2.30 p.m. Ammunition must be obtained from the Volunteer Headquarters at 11 p.m. on Saturday the 5th inst.

## THE MACWATERS QUARTETTE.

The MacWaters Quartette have captured the hearts of people on the Shamoan, and there are many residents who now regret that they were not present at the concert given in the Canton Club Theatre. It proved to be an immense success. The humoresques, as sung by the Quartette, were equally effective, while their ensemble work, their close harmonies, their tone blending in southern melodies and classics were superb. Mr. Evans is a clever pianist, who shows beautiful technique, while the tenor and bass solos and the duet by Messrs. Oakes and Schultz were distinctively pleasing. The climax of the evening was the brilliant rendition Strauss "Greeting to Spring" from the Blue Danube Waltzes, being an arrangement for Quartette with piano.

The programme for the concert in the Theatre Royal on Tuesday is as follows:—

(a) The Night has a Thousand Eyes MacO'neil.

(b) On the Sea..... Dudley Buck.

The Quartette.

Bill's in Trouble.....Humorous Reading.

Annie Laurie.....Anzaged by Dudley Buck.

The Quartette.

Irish Love Song.....Tenor Solo.. Lang.

Mr. Oakes.

Ant Marjory.....Humorous.....Parks.

The Quartette.

The Batt o' Eye.....Tenor and Bass Duet.

Donheur.

Mr. Oakes and Mr. Schultz.

Remember thy Creator.....Humorous.

The Quartette.

Intermission.

I'd like to go down South.

Once More.....Parks.

The Quartette.

Concert Waltz.....Piano Solo.....Schultz.

Mr. Evans.

Dried Apple Pies.....Humorous.

The Quartette.

Deep in the Mine.....Piano Solo.....Jude.

Mr. Schultz.

Greeting (From the "Blue") Strauss.

Quartette with Piano.

Humorous Readings.....Selected.

Mr. Thomas.

(a) Kentucky Baba.....Parks.

(b) Good Night.....Buck.

The Quartette.

The Quartette is composed as follows:—

J. Adams Oakes.....First Tenor.

Frank R. Evans, Second Tenor Pianist.

William B. Thomas.....Bass.

Arthur E. Schultz.....Bass.

CONTRABAND OPIUM.

Alleged Big Haul in Mongolia's Stateroom.

San Francisco, Sept. 6:—

Twenty-nine five-ton tins of opium, valued at \$600, were found this morning hidden in a stateroom of the Pacific Mail liner Mongolia and were confiscated by Customs Inspector Samuel Sack.

This is the first contraband opium that has been found aboard the Mongolia. Customs inspectors, however, believe that more of the drug is concealed aboard the ship and the searching squad, armed with searchlights, gimlets, crowbars and other implements, is probing every nook and corner of the stateroom. It is believed that the contraband was found had been unoccupied during the voyage across the Pacific, and the inspectors are of the opinion that the forbidden drug was smuggled into the apartment by a Chinese member of the crew.

To-day's seizure is the first that has been made in more than six weeks since special agents of the fight against the opium ring.—Exchange.

Rebuilding in Caine Road. Extensive alterations are taking place in the large block next to the Missions Strangers in Caine Road. Some time since, the whole property was acquired by a Straits-born Chinese, and we are now informed that, when the premises are pulled down, two rows of houses—one on the higher level with the street—will be erected.

Land Sales. Ten lots of crown land are to be sold by auction at the District Land Office, Taipei, on the 11th inst. the upset prices varying from \$2 to \$35, at the District Land Office, Hongkong, on the 18th inst. at 2.30 p.m. 12,100 square feet of crown land, situated at Ping Chai are to be sold, the upset price is \$121.

## POST OFFICE.

## SIBERIAN ROUTE. SUPERSCRIPTION UNNECESSARY FOR EUROPE.

Letters and post card for Europe will in future be despatched by the route of Siberia unless marked by the sender for transmission by another route. Printed matter and samples will continue to be sent by the Suez Canal route.

The Public are requested to have their correspondence addressed to their house numbers and not their house names, as such names are often confusing to Chinese Postmen.
